Decision-Making Policies Relating to Compensation Amounts and Calculation Methods (Updated)	Yes
---	-----

Disclosure of Decision-Making Policies Relating to compensation Amounts and Calculation Methods

SuMi TRUST Holdings has set forth a policy on decisions on the content of compensation for individual directors and executive officers (*1) (*2).

- Compensation for the directors (excluding external directors and internal directors who are Audit Committee members) and executive officers (*1) (*2) (the “officers”) of SuMi TRUST Holdings aims to function effectively as an incentive for improvement of corporate performance and expansion of corporate value in order to realize stable and sustainable growth of the SuMi TRUST Group, including SuMi TRUST Bank, a core subsidiary.
- Not focusing on single-year performance evaluation in which short-term contribution to profit is emphasized, but focusing on officers’ qualifications and capabilities as senior management, and based on a comprehensive evaluation that reflects assessment of medium- to long-term performance, the compensation structure shall be established as a combination of both short-term and medium- to long-term incentives.
- In order to effectively provide a supervising system over each Group company, SuMi TRUST Holdings, as a holding company, determines the compensation of individual officers based on highly transparent, fair and objective assessments upon accurately monitoring the role to be played by each officer in the management of the Group as well as their accomplishments.
- The Compensation Committee intends to deepen the cooperation with the Nominating Committee, the Audit Committee and voluntary committees, etc. in sharing information, particularly in light of the transition to a company with Three Committees in fiscal year 2016, and conduct deliberations with the aim

to establish systems and structures for compensation of greater accountability and to make fair and well-balanced decisions on the amount of compensation.

- Specifically, the following compensation structure is applied.

(i) In principle, payment shall be made as a combination of monthly compensation, officers' bonus, and stock-compensation-type stock options.

(ii) The monthly compensation is separated into two types: "fixed compensation" that is a fixed amount per position, and "individual performance-based compensation" that is based on each individual officer's evaluation of the preceding fiscal year while also reflecting the officer's medium- to long-term performance contribution. "Individual performance-based compensation," which is determined on the basis of individual evaluations, has been designed so that it accounts for a sizable enough portion of the monthly compensation to act as an incentive.

(iii) Officers' bonus is separated into two types: "company performance-based bonus" that reflects objective indicators such as consolidated net income, and "individual performance-based bonus" that reflects the individual officer's performance of the preceding fiscal year. The officers' bonus has been designed so that it accounts for a sizable enough portion of total compensation to act as an incentive.

(iv) With regard to the stock-compensation-type stock options, the number of stock option rights shall be determined based on the number of stock option rights per position with an adjustment for each individual officer's performance evaluation and the like. Stock-compensation-type stock options have been designed to account for a sizable enough portion of total compensation to act as an incentive.

(v) The share ownership plan of officers is a mechanism by which individual officers shall voluntarily determine their invested amounts based on the target number of share ownership defined per position.

- The compensation to external directors is composed of the fixed monthly compensation alone and determined taking into consideration the business conditions of SuMi TRUST Holdings, compensation level of its internal directors, general standards and the like.
- The compensation to internal directors who are Audit Committee members is composed of the fixed monthly compensation alone, and the suitable level for internal directors who are Audit Committee members is determined, taking into consideration the business conditions of SuMi TRUST Holdings, compensation levels of directors, general standards and the like.

The Compensation Committee deliberates the decision-making policy relating to officers' compensation of SuMi TRUST Bank, the core subsidiary, and then reports it to the Board of Directors.

<Support System for External Directors>

SuMi TRUST Holdings constructively dissolved the External Officers Support Office, which had supported external officers, in April 2017 and established the new Corporate Secretariat in order to strengthen supporting systems to fulfill the functions of the external officers.

In order to support the chairman of the Board of Directors in fulfilling his duties, SuMi TRUST Holdings has appointed two non-executive directors who are full-time Audit Committee members as deputy chairmen of the Board of Directors, in addition to the Corporate Secretariat, to provide various information mainly on
